

Visiting hours

15.00 to 20.00

- We can request that you leave the room, even during visiting hours. For example, during care or treatment sessions, or if the visit is too tiring for the patient.
- Every floor has a seating area near the elevators where you can wait.
- The patient's contact is also welcome to visit between 10.00 and 13.00.

We ask for your understanding and cooperation. Thank you!

Please note: some wards have different visiting hours. These are listed at: www.asz.nl/bezoektijden
