Questions about contamination risks

1. Are you a confirmed carrier of MRSA or any other highly resistant micro-organism?
2. Have you recently undergone treatment at, or been admitted to, an international care facility?
3. Do you live or work at a company where pigs, veal calves or broilers are kept?
4. Are you a partner, room-mate or caregiver of someone who is a confirmed MRSA carrier?
5. *If under the age of 18:* Were you adopted from abroad, now reside in the Netherlands and have yet to be tested for MRSA?
6. Have you been admitted to a care facility that has had an MRSA or any other highly resistant micro-organism outbreak within the last two months and have you been approached for a culture analysis?
7. Within the past two months, did you at any time live at a facility for asylum seekers?
