

Discharged from hospital?

When you are discharged from hospital, you will receive, if necessary, medication from the outpatient pharmacy to take home. Why go to the outpatient pharmacy instead of going to your own pharmacy?

- We fully understand what has changed during your hospitalisation and have adapted your medication accordingly.
- We can, if necessary, quickly and easily consult your doctor and specialist.
- We discuss the current medication list and the intake schedule with you, so that your medication usage is completely clear.
- We are more than willing to answer your questions.
- We will send the current medication list to your pharmacy. Together with your home pharmacy, we ensure that your file remains up-to-date.
- Your medication will be delivered to:
the outpatient pharmacy/your bedside.

The outpatient pharmacy of the Albert Schweitzer Hospital is open from Monday - Friday from 8:00 am to 5:30 pm.

- Dordwijk:** in the central hall next to the reception.
Tel: (078) 654 53 60. E-mail: poliapotheekdordrecht@asz.nl
- Zwijndrecht:** in the central hall next to the main entrance
Tel: (078) 654 53 70. E-mail: apotheekzwijndrecht@asz.nl
